Status of the Township: Finishing year in the red, township is suffering from IT services and huge costs. County road commission property purchase is moving forward. Highway construction is underway last public meeting with MDOT on this past Monday June 23rd. In September we will know who the contractor will be. As for NEMSA its an interesting talk but we must look at cost either taxes up or relieving the mileage and without taxing our citizens should be our goals. 60 day withdrawal can happen.
